

Karamtara - Fact Sheet

Background

Karamtara is an engineering, manufacturing and technology company. Established in the year 1998, Karamtara has evolved as a leader in the Transmission and Distribution (T& D) Segment of Power Sector.

We are the only integrated player in the world manufacturing Transmission line & Telecom Towers, High Tensile & Mild Steel Fasteners, OHTL Insulator Fittings and Conductor Accessories, Hot Rolled HT and MS Structural Steel under one banner, offering Industry a one stop solution for most items in T&D segment.

Our Businesses

Transmission Line Business:

Transmission line SBU is the primary and largest business vertical of the Company. It manufactures entire range of transmission line towers used in power Transmission & Distribution, having manufacturing capacity of 108000 MT per annum thereby making Karamtara as one of the largest tower manufacturing facility in India under one roof. With more than a decade of proven excellence, it has capabilities to design, manufacture and supply transmission lines up to 1200 kV. It has successfully supplied over 450000 MT of transmission line towers in more than 25 countries.

Fasteners Business:

Fasteners business caters to Power Generation, Transmission & Distribution Industry, Telecom Tower Industry, Automobile Industry etc. with HT & MS fasteners having manufacturing capacity of 24000 MT. The product range includes bolts, nuts, anti-theft bolts & nuts, studs, foundation bolts, U-bolts, plain and spring washers.

Structural Steel Business:

Structural steel plant was set up to support our growing business of tower manufacturing and cater to the demands of the Transmission and Telecommunication industry both Indian and global market. As one of the leading manufacturers of entire range of Hot Rolled HT & MS Structural Steel, it complies with various international standards and specifications. The combined capacity to manufacture structure steel is 280000 MT per annum.

Hardware Fittings & Accessories Business:

Karamtara started Hardware Fittings business for Power Sector in the year 2011 beginning with acquisition of Iselfa Morsettaria S.r.l, Italy and signing up of technology license agreement with Wise Control Inc., South Korea to cater to the demands of the Transmission and Distribution industry in both domestic and global market. The Product ranges are Insulator String fittings, Conductor Accessories, Vibration and Spacer Dampers, OPGW fittings, Fittings and accessories for Substations, Fittings for Power Distribution Lines, and Fitting & Accessories for Railways Electrification

International Presence: Iselfa Morsetteria S.r.l., Italy

In 2011 Karamtara acquired 100% capital of Iselfa Morsetteria S.r.l., an Italian Company which is engaged in the business of Hardware Fittings for last over 75 years and is qualified with most of the Electricity Boards/ Utilities across the world. Iselfa has a legacy of over 75 years, known for its competence in design, testing, innovation, excellence in manufacturing and delivery performance. Its supply of these fittings in over 45 countries is testimony of customer's confidence in its quality. Most of the designs have been successfully type tested in laboratories of international repute in close coordination with renowned consultants and institutions.

Karamtara has achieved CAGR of 35% in last 4 years. We work in a SAP enabled environment. Our people are spread over in Mumbai, Tarapur, Nagapur and in Italy.

Our Customers:

- Power Grid
- L&T
- TATA
- KEC International
- Kalptaru
- Jyoti Structures
- Isolux Corsan
- Sterlite Ltd.
- ABB
- BHEL
- Gammon India
- Aditya Birla Group
- Bajaj Electricals
- MAHA Transco
- NPCIL
- NTPC
- Unitech
- Lanco
- Vodafone
- Emco
- IVRCL
- Airtel
- Mahindra

Global Presence:

We have supplied our products to more than 25 countries.
